

# CROSSFIRE Mustang

## ATV 250cc

The Mustang Evo 2 is a is the best of both worlds a workhorse that can play. It's a powerhouse 250cc OHC Zongshen motor coupled with a 30 mm carb that gives the Mustang Evo 2 its enormous grunt. Keeping cool we have an oversized radiator with an automatic thermo fan that cuts in and out as to keep the machine at optimum temperature. Hydraulic disc brakes all round are standard. The speedometer is one of the most comprehensive units fitted with: Fuel gauge, Speed, Odometer, Distance, RPM gauge as well as a clock . This gives the rider all required information at a touch of a finger tip. The automatic chain tensioner will ensure you ride days and or week before adjusting

of the chain is required. When one has to adjust the chain the ecliptic chain tensioning system guarantees the sprockets are in perfect alignment.

In short this is without competition the Crossfire Mustang 270 ATV Evo 2 is one of the best quads on the market at a price which is unrivalled.

<b>Specifications:</b>	
<b>Engine</b>	
Engine Model Genuine Overhead Cam Zongshen 250cc	Engine Type 4 Stroke - Single Cylinder - Water Cooled
Cooling System Water Cooled	Compression 10.5:1
Bore/Stroke 67mm x 65mm	Maximum Output KW/HP 16kW / 7500rpm
Rear Sprocket 40 teeth	Starting System Electric Start
Clutch Type Wet Multi-plate Clutch (6 Plate)	Transmission 4 Speed Manual + Reverse
Carburettor Performance Tuned Carburettor 30mm	Ignition CDI
Fuel Type High Octane Unleaded Fuel (92 or higher)	Auto thermo fan (Fully automatic activation)
Magneto Type Electronic Ignition System	Intake/Exhaust
Final Drive High Quality #428 Chain	Spark Plug NGK DR8EA
Engine Oil Grade Non Synthetic 10W/40SF 4 Stroke	
<b>Material</b>	
Frame Black High Strength Steel	Swing arm Black High Strength Steel
Controls Alloy	Handlebar Tapered Alloy Handlebar
Handlebar Grip Soft High Grip Rubber	Rim Black High Strength Steel Black High Strength Steel
Tyre 21 x 7.00 - 10 High Grip All Terrain Tyres (F) 18 x 11 - 10 High Grip All Terrain Tyres (R)	
Suspension Twin Nitrogen Charged Reservoir Shocks (F) Heavy Duty Rear Shock (R)	
Brakes Disc Brakes (F) Disc Brakes (R)	
<b>Capacity</b>	
Maximum Speed > 95kph*	Maximum Load 200kgs
Fuel Capacity 5L	Engine Oil Capacity 1300ml
<b>Dimensions</b>	
Seat Height 850mm	Ground Clearance 310mm
Wheel Base 1140mm	G.W. / N.W. 180 / 152 kgs
Product Size 1600 x 1120 x 1120 mm	Package Size 1430 x 845 x 820 mm
